RE: Noble Energy, Inc.
Barker 1-6 Petition for the Integration of Interests
Solsman 1-32 Petition for the Integration of Interests

Dear Herschel:

In the Barker 1-6H Drilling Unit, comprised of part of Section 6, Township 6 North, Range 9 West, Sullivan County, the Separately Owned Interest is the Lewis Cemetery, which is abandoned. Noble Energy has diligently attempted to ascertain ownership of Tract 015, containing 0.50 acres, but no such current owner can be identified or located. Noble Energy has requested on numerous occasions that the Township Trustees execute an Oil and Gas Lease to cover the Separately Owned Interest. Since the Trustees do not maintain this cemetery, they will not claim any ownership interest therein. Further, they have declined to execute an Oil and Gas Lease based upon said lack of ownership.

In the Solsman 1-32H Drilling Unit, comprised of the East Half of Section 32, Township 7 North, Range 9, the Separately Owned Interest, the Separately Owned Interest is the Lemon Cemetery, which is abandoned. Noble Energy has diligently attempted to ascertain ownership of Tract 014, containing 0.08 acres, but no such current owner can be identified or located. Noble Energy has requested on numerous occasions that the Township Trustees execute an Oil and Gas Lease to cover the Separately Owned Interest. Since the Trustees do not maintain this cemetery, they will not claim any ownership interest therein. Further, they have declined to execute an Oil and Gas Lease based upon said lack of ownership. Noble Energy has also requested that the owner of the land surrounding Tract 014, being the parcel labeled on the Exhibit B Map as Tract 001, execute an Affidavit of Possession to establish a claim of interest in the Separately Owned Interest. Said landowners declined, stating that they were not in possession of the Separately Owned Interest, nor did they claim any interest therein.

MAY 06 2009

**STATE OF INDIANA
DEPARTMENT OF NATURAL RESOURCES
DIVISION OF OIL AND GAS**

IN RE: PETITION OF **NOBLE ENERGY, INC.**, FOR THE
INTEGRATION OF INTERESTS IN THE BARKER 1-6H
DRILLING UNIT LOCATED IN SECTION 6, TOWNSHIP 6
NORTH, RANGE 9 WEST, SULLIVAN COUNTY, INDIANA.

PETITION FOR THE INTEGRATION OF INTERESTS

COMES NOW, Noble Energy, Inc., 100 Glenborough, Suite 100, Houston, Texas 77067 ("Petitioner"), by attorney Karen J. Anspaugh, and pursuant to IC 14-37-9-1 and other applicable laws enacted by the State of Indiana to prevent waste and to avoid the drilling of unnecessary wells, respectfully petitions the Department of Natural Resources, Division of Oil and Gas ("Division"), to require the integration of all interests in the oil, gas and associated hydrocarbons in and under part of Section 6, Township 6 North, Range 9 West, Sullivan County, Indiana, to develop the land as a single drilling unit. The unleased parcel subject to this Petition contains 0.50 acres and is described in Exhibit A and depicted in Exhibit B as Tract 015 ("Separately Owned Interest"). The Separately Owned Interest is owned by the following party ("Non-Consenting Landowner"):

Lewis Cemetery

In support thereof, Petitioner states as follows and submits and incorporates the following Exhibits:

- Exhibit A: Legal Description of Separately Owned Interest
- Exhibit B: Map of Pooled Unit Depicting Well and Parcels
- Exhibit C: Oil and Gas Lease Form Utilized in Project Area
- Exhibit D: Division of Ownership Interest Spreadsheet
- Exhibit E: Contact Report Summarizing Lease Attempts

1. Petitioner acquired a production permit for the Barker 1-6H Drilling Unit pertaining to part of Section 6, Township 6 North, Range 9 West, as said Section was established by the Official United States Public Lands Survey by the rectangular surveying system for the State of Indiana ("Established Drilling Unit"), described as follows:

BARKER 1-6H UNIT - *The Southern portion of Section 6, Township 6 North, Range 9 West, Sullivan County, Indiana, containing 360.728 acres, more or less.*

2. Petitioner owns valid and operative Oil and Gas Leases ("Operative Leases") covering all of the oil, gas and associated hydrocarbons underlying the leased parcels in the Established Drilling Unit, which total 360.228 acres.
3. Ownership information pertaining to each parcel in the Established Drilling Unit is set out in Exhibit D.

MAY 06 2009

4. The Separately Owned Interest is situated so as to constitute an integral and necessary part of the Established Drilling Unit as described in 312 IAC 16-5-3(c).
5. The Operative Leases contain terms which are standard in the industry and commonly utilized in the project area, including a royalty rate of one-eighth (1/8th) and a primary term of three (3) years. Landowners in the general vicinity of the Established Drilling Unit are customarily compensated with a lease-signing bonus between twenty dollars (\$20.00) and thirty-five dollars (\$35.00) per acre.
6. Natural gas and associated hydrocarbons are reasonably believed to underlie the Established Drilling Unit. It is also a reasonable belief that natural gas and associated hydrocarbons can be economically produced by drilling and operating a well.
7. The Operative Leases contain a pooling clause granting Petitioner the right and power to pool or combine the acreage covered thereby with other lands for the production of oil, gas and other hydrocarbons.
8. The Operative Leases contain terms giving the owner of each tract of land therein an equitable share of the net production of oil, gas and other hydrocarbons in the communitized unit over and above that which may be used or consumed for production or development purposes. Said net production share is based upon the ratio between tract acreage and the total acreage of the communitized unit. Production allocation shall be disbursed as if said production was generated from a well drilled on that tract.
9. The terms contained in the pooling clause of the Operative Leases provide the most just, reasonable and equitable method for sharing the production of oil, gas and other hydrocarbons from the Established Drilling Unit, to wit:

Operations upon and production from the unit shall be treated as if such operations were upon or such production were from the Land, whether or not the well or wells are located thereon. The entire acreage within a unit shall be treated for all purposes as if it were covered by and included in this lease except that the royalty on production from the unit shall be as below provided and except that in calculating the amount of any shut-in gas royalties, only that part of the acreage originally leased and then actually embraced by this lease shall be counted. With respect to the production from the unit, Lessee shall pay Lessor, in lieu of other royalties thereon, only such proportion of the royalties stipulated herein as the amount of Lessor's acreage hereunder which is placed in the unit, or his royalty interest therein on an acreage basis, bears to the total acreage in the unit.

10. Petitioner has repeatedly contacted the owner of the Separately Owned Interest and has diligently attempted to obtain an Oil and Gas Lease to cover said parcel or to obtain the consent of the owner to voluntarily integrate their interest with the leased parcels in the Established Drilling Unit. A Contact Report which summarizes said attempts is set out in Exhibit E.

11. Petitioner now desires to exercise its rights granted under the pooling clause contained in the Operative Leases, to explore for natural gas and associated hydrocarbons thereunder. Petitioner is being prevented from doing so by the existence of the Separately Owned Interest.
12. Petitioner is prepared to pay all costs associated with the drilling and abandonment of the well in the event the same is found to be a dry hole.
13. Petitioner intends to drill on the Established Drilling Unit a single horizontal well into the New Albany Shale and intends to produce natural gas and the constituents thereof. Exhibit B depicts the Established Drilling Unit, surface location, path, total length and total depth of the horizontal well bore.
14. Petitioner intends to utilize, with the permission of the pertinent landowners, a portion of the surface within the Established Drilling Unit for a drilling pad, measuring approximately 300 feet by 300 feet. No access road is necessary as said well pad is located adjacent to State Highway 58. Petitioner intends to place a supply pipeline on the Established Drilling Unit to connect the Barker 1-6H Well with other producing wells. Petitioner intends to build a wellhead, separator, meter run and water tank above ground. No other surface facilities and/or structures are planned.
15. Petitioner has executed an "Authority for Expenditure," being a detailed plan to manage the costs associated with drilling and operation of the well. Said Authority for Expenditure will be submitted to Division simultaneously with this Petition. Division is authorized by Petitioner to provide a copy of the Authority for Expenditure to all persons desiring to participate in the costs of drilling and operation of the well.
16. If Division does not require the integration of the Separately Owned Interest in the Established Drilling Unit, the natural gas and associated hydrocarbons thereunder cannot be economically and efficiently extracted, correlative rights cannot be protected and waste and the drilling of unnecessary wells will occur.
17. Division has the right and power, pursuant to the provisions of IC 14-37-9-1 et seq., to require such integration "upon reasonable terms that give the owner of each tract an equitable share of oil and natural gas in the unit or pool."

WHEREFORE, Petitioner respectfully moves Division, after any such notice and hearing as may be required by law, to issue an "Order for the Integration of Interests" to effectuate the following:

1. Integrate the Separately Owned Interest with all other leased parcels in the Established Drilling Unit as one of the following:
 - A) A royalty owner upon the terms and conditions specified in the Operative Leases.
 - B) A participating owner who pays their share of the estimated well costs and receives their proportionate share of production; or

- C) A non-participating owner who pays their share of the well costs on a limited basis, not including up front costs, and who is compensated a one-eighth (1/8th) royalty interest until the well operator has recovered the non-consenting landowner's share of drilling and operating costs plus compensation for carrying the risk of a dry hole. Thereafter, the non-participating owner receives their proportionate share of production.
2. Designate Petitioner as the operator of the Established Drilling Unit for the development and operation thereof; and
 3. Implement any further terms and provisions in accordance with the law of the State of Indiana that Division may, in its discretion, deem desirable and proper.

Respectfully submitted,

NOBLE ENERGY, INC.

Exhibit "B"
Part of Section 6, Township 6 North, Range 9 West
Haddon Township, Sullivan County, Indiana

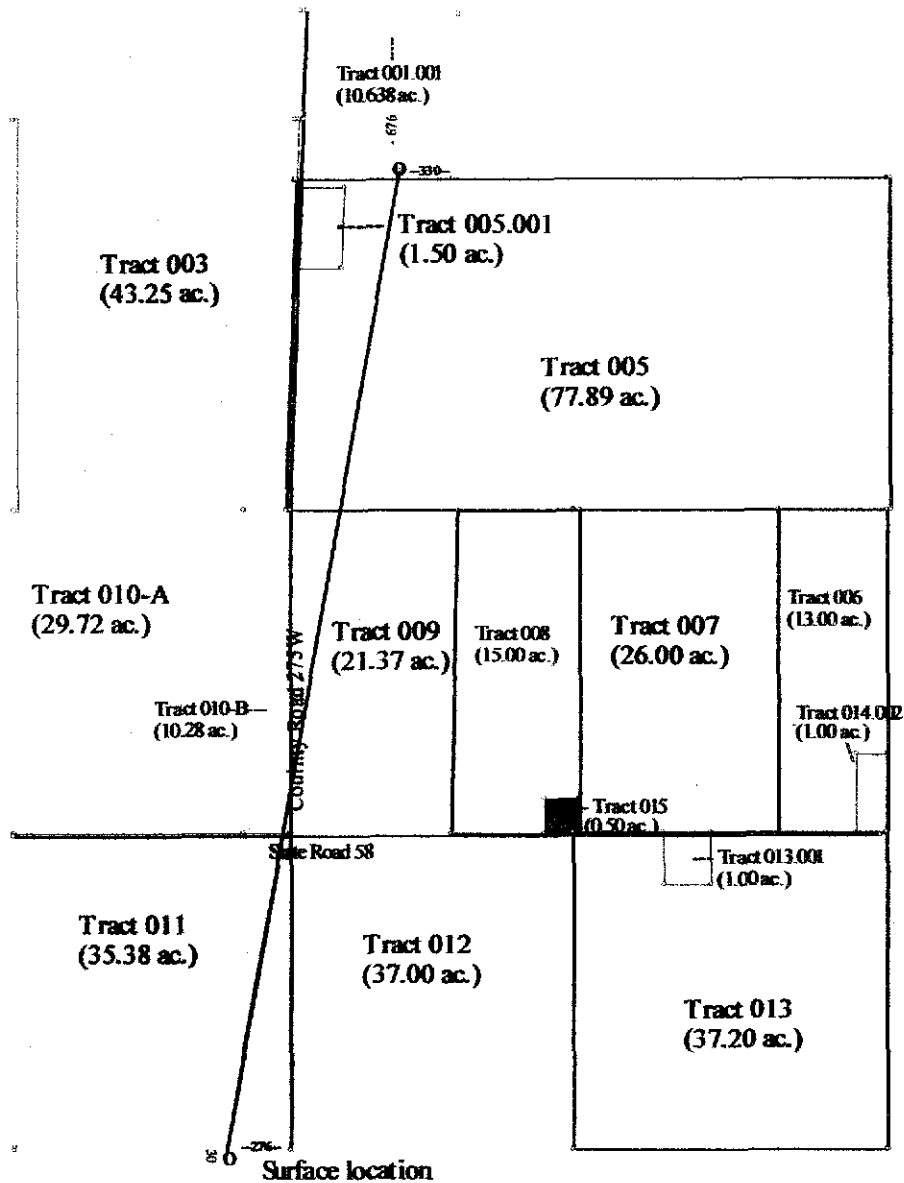

EXHIBIT "C"
Sample Oil and Gas Lease Utilized in the Production Area

OIL AND GAS PAID UP LEASE

THIS AGREEMENT, made and entered into this _____ day of _____, 2008, by and between _____, whose address is _____, hereinafter called Lessor, whether one or more, and Noble Energy Inc., whose address is 1625 Broadway, Suite 2200, Denver, Colorado 80202 (hereinafter called Lessee);

WITNESSETH:

1. That the said Lessor, for and in consideration of Ten and More Dollars, cash in hand paid, receipt and adequacy of which are hereby acknowledged, and of the royalties herein provided and of the agreements of the Lessee herein contained, hereby grants, leases and lets exclusively unto Lessee the land covered hereby for the purposes of investigating, exploring, prospecting, drilling (either horizontally, vertically, or directionally), developing, operating, producing, marketing, and transporting oil and gas along with all hydrocarbon and non-hydrocarbon substances (including sulphur) produced in association therewith. The term "oil" as used herein includes condensate and all other liquid hydrocarbons. The term "gas" as used herein includes, but is not limited to, helium, carbon dioxide, and other commercial gases, as well as hydrocarbon gases such as casinghead gas, hydrogen sulfide gas, coalbed methane gas, gob gas, and all natural gas originating, produced, or emitted from coal formations or seams, and any related, associated, or adjacent rock material. Lessor further grants, leases and lets exclusively unto Lessee said land for the purposes of injecting gas, waters, other fluids, air and any other substances into subsurface strata, conducting all types of recovery operations, establishing and utilizing facilities for the disposition of salt water and other waste materials, laying pipelines, storing leased substances, building roads, bridges, tanks, power lines, telephone lines and any other structures and things thereon to produce, save, take care of, treat, process, store and transport said leased substances and other products manufactured therefrom, together with such rights and easements in said land necessary or useful in Lessee's oil and gas operations on said land or adjoining lands, together with the right to transport through or over the property hereby leased any and all oil and gas produced by Lessee, its successors and assigns, from other property, including the right of way and easement to lay, construct, use, maintain, operate, change, replace and remove pipeline or pipelines for such transportation and with the right to cross any adjacent or contiguous lands of Lessor by use of existing roads or otherwise in order to have ingress and egress to and from said land to carry out such purposes. The land covered hereby is located in Sullivan County, Indiana and is described as follows, to wit: (hereinafter called the Land) being estimated to comprise _____ acres, whether more or less, which acreage figure may be relied upon by Lessee in calculating payments hereunder. Notwithstanding the above specific description, it is nevertheless the intention of Lessor to include within this lease, and Lessor does hereby lease, all lands now owned, claimed, or hereafter acquired by Lessor up to the boundaries of any abutting landowner (including any vacancies), together with any and all of Lessor's interest in any lands underlying lakes, streams, roads, easements and rights-of-way which cross or adjoin the Land, including all land added thereto by accretion.

2. It is agreed that this is a paid up lease and shall remain in force for a term of five (5) years from the date written above, (herein called the primary term) and as long thereafter as oil and gas, or either of them, are produced or capable of being produced from the Land or lands with which the Land is pooled, consolidated, or unitized hereunder, or so long as Lessor is engaged in drilling operations or reworking operations thereon or on lands pooled, consolidated or unitized therewith, or this lease is continued in force by any other provision hereof. If Lessee's operations are delayed or interrupted as a result of any coal mining operations affecting the Land or any portion thereof, including any lands pooled or unitized therewith, such delay will automatically extend the primary term of this lease for a period of time equal to any delay or interruption.

3. Lessee agrees to deliver to the credit of Lessor into the pipeline or storage tanks to which the well may be connected, one-eighth (1/8th) part of all oil produced and saved from the Land, or, from time to time, at the option of the Lessee, the market price at the well of such one-eighth (1/8th) part of all oil produced and saved from the Land. Lessee shall pay Lessor for gas produced and saved from the Land, a royalty equal to one-eighth (1/8th) of the net proceeds realized by Lessee from the sale thereof, computed at the wellhead. Lessor shall pay a proportionate part of all ad valorem, excise, occupation, depletion, privilege, license, severance, processing, production or other taxes now or hereafter levied, or assessed or charged on oil or gas produced from the Land. During any period (whether before or after expiration of the primary term hereof) when gas is not being so sold or used and the well or wells are shut-in and there is no current production of oil or operations on the Land (or lands with which all or a part of the Land is pooled) sufficient to keep this lease in force, Lessee shall pay or tender a royalty of Two Hundred Fifty Dollars (\$250.00) per year for each shut-in gas well, such payment or tender to be made on or before the anniversary date of this lease next ensuing after the expiration of ninety (90) days from the date such well is shut-in and thereafter on the anniversary date of this lease during the period such well is shut-in, to the royalty owners. When such payment or tender is made, it will be considered that gas is being produced within the meaning of the entire lease.

4. If at expiration of the primary term no oil or gas is being produced on the Land or on lands pooled, consolidated, or unitized therewith, but Lessee is then engaged in drilling operations or reworking operations thereon (or on acreage pooled, consolidated, or unitized therewith) this lease shall remain in force so long as such operations or additional operations (whether on the same well or on different wells successively) are commenced and prosecuted with reasonable diligence and dispatch with no cessation of more than one hundred twenty (120) consecutive days and, if they result in the production of oil or gas, so long thereafter as any oil or gas is produced thereunder from the Land. It is agreed, however, that no implied covenant shall be read into this lease requiring Lessee to drill or to continue drilling on the Land, or fixing the measure of diligence therefore. Drilling operations shall be deemed to be commenced when the first material is placed on the Land or when the first work, other than surveying or staking the location, is done thereon which is necessary for such operations.

5. Lessee is hereby granted the right at any time and from time to time, as a recurring right either before or after production, to pool, consolidate, and unitize the Land or any portion or portions thereof, as to all strata or any stratum or strata, with any other lands as to all strata or any stratum or strata, for the production of oil or gas. However, no unit for the production primarily of oil shall embrace more than 80 acres, or for the production primarily of gas (with or without distillate) more than 640 acres; provided that if any governmental regulation shall prescribe a spacing pattern for the development of the field or allocate a producing allowable based on acreage per well, then any such unit may embrace as much additional acreage as may be so prescribed or as may be used in such allocation of allowable. Lessee shall file written unit designations or declarations of pooling in the county in which the Land is located. Operations upon and production from the unit shall be treated as if such operations were upon or such production were from the Land, whether or not the well or wells are located thereon. The entire acreage within a unit shall be treated for all purposes as if it were covered by and included in this lease except that the royalty on production from the unit shall be as below provided and except that in calculating the amount of any shut-in gas royalties, only that part of the acreage originally leased and then actually embraced by this lease shall be counted. With respect to the production from the unit, Lessee shall pay Lessor, in lieu of other royalties thereon, only such proportion of the royalties stipulated herein as the amount of Lessor's acreage hereunder which is placed in the unit, or his royalty interest therein on an acreage basis, bears to the total acreage in the unit.

6. Lessee shall, without cost, have the right to use oil, gas and water produced from or stored on the Land for Lessee's operations, except that Lessee shall not be entitled to use water from Lessor's domestic water well and Lessee, when requested in writing by any Lessor owning an interest in the surface, shall bury, if reasonable and practical, all pipelines crossing cultivated lands off the well sites below ordinary plow depth. Lessee agrees that no well shall be drilled within two hundred (200) feet of any occupied residence located on the Land as of the date of this lease without the Lessor's consent. Lessee shall pay Lessor for all damages directly caused by Lessee's drilling operations on the Land to Lessor's growing crops, trees, and fences. Lessee shall have the right at any time during or after the expiration of this lease to remove all property and fixtures placed in, on or under the Land by Lessee, including the right to draw and remove all casing and pipelines.

7. The rights of each party hereunder may be assigned in whole or in part and the provisions hereof shall extend to their heirs, devisees, successors and assigns, but no change or division in the ownership of the Land or royalties, however accomplished, shall operate to enlarge the obligations or diminish the rights of Lessee; and no change or division in such ownership shall be binding on Lessee until thirty (30) days after Lessee shall have been furnished with a certified copy of a recorded instrument or instruments evidencing such change of ownership. In the event of assignment hereof in whole or in part, liability for breach of any obligation issued hereunder shall rest exclusively upon the owner of this lease, or portion thereof, who commits such breach. In the event of the death of any person entitled to royalties hereunder, Lessee may pay or tender such royalties to the credit of the deceased, until such time as Lessee has been furnished with the proper evidence of the appointment and qualification of an executor or an administrator of the estate, or if there be none, then until Lessee is furnished satisfactory evidence as to the heirs or devisees of the deceased, and that all debts of the estate have been paid. If at any time two (2) or more persons become entitled to participate in the royalty payable hereunder, Lessee may pay or tender such royalty jointly to such persons; or, at the lessee's election, the portion or part of said royalty to which each participant is entitled may be paid or tendered to him separately; and payment or tender to any participant of his portion of the royalties hereunder shall maintain this lease as to such participant. In the event of an assignment of this lease as to a segregated portion of the Land and default in royalty payment by one shall not affect the rights of other leasehold owners hereunder. If the Land is now or shall hereafter be owned severally or in separate tracts, the premises nevertheless shall be developed and operated as one lease and all royalties accruing hereunder shall be treated as an entirety and shall be divided among and paid to such separate owners in the proportion that the acreage owned by each such separate owner bears to the entire leased acreage.

8. Lessee, and Lessee's successors and assigns, shall have the right at any time to surrender this lease, in whole or in part, to Lessor, or Lessor's heirs or successors and assigns, by delivering or mailing a release thereof to the Lessor, or by placing a release thereof of record in the county in which the Land is situated; thereupon, Lessee shall be relieved of all obligations, expressed or implied, of this lease as to the acreage so surrendered, and thereafter the shut-in payments payable hereunder shall be reduced in the proportion that the acreage covered hereby is reduced by said release or releases.

9. Lessor agrees that should Lessee be advised of or receive notice of an adverse claim or of defective title affecting the Land covered hereby which could affect all or a part of the payments due hereunder, then Lessor expressly authorizes Lessee, at Lessee's sole discretion, and without liability, to withhold payment and delivery of all Lessor's such payments or production in kind hereunder, without interest or penalty, until such time as said adverse claim is resolved or title cured by a final decree in a court of competent jurisdiction. Or, Lessee may file an interpleader action and pay Lessor's payments or production in kind as directed by a court of competent jurisdiction until such time as said court determines and authorizes the proper distribution of said payments or payments in kind to the parties involved. Lessor agrees that in no event shall Lessee's withholding of payment or its payments made as directed by a court of competent jurisdiction constitute a default by Lessee. Lessor further agrees that Lessee shall in no event be liable for interest, conversion, penalty, or wrongful withholding of such suspended amounts. In the event of production hereunder, Lessor agrees to execute a division order confirming his interest herein.

10. The breach by Lessee of any obligations arising hereunder shall not work a forfeiture or termination of this lease, nor cause a termination or reversion on the estate created hereby, nor be ground for cancellation hereof, in whole or in part, unless Lessor shall notify Lessee in writing of the specific facts relied upon in claiming a breach hereof, and Lessee, if in default, shall have sixty (60) days after receipt of such notice in which to commence the compliance with the obligations imposed by virtue of this instrument, and if Lessee shall fail to do so then Lessor shall have grounds for action in a court of law or such remedy to which he may be entitled.

11. Lessor hereby warrants and agrees to defend the title to the Land and agrees also that Lessee at its option may discharge any tax, mortgage, or other liens or encumbrances upon the Land either in whole or in part, and in the event Lessee does so, it shall be subrogated to such liens with the right to enforce same and apply royalties accruing hereunder towards satisfying same. Without impairment of Lessee's rights under the above warranty in event of failure of title, it is agreed that if Lessor owns an interest in the oil or gas in or under the Land, less than the entire fee simple estate, then the royalties, shut-in royalties, and bonus to be paid to Lessor shall be reduced proportionately. Lessor agrees that during the primary term of this lease, it will not grant a top lease to any third party without first giving Lessee the right to acquire such top lease on the same terms, conditions, and for the same consideration being afforded by third party.

12. Should Lessee be prevented from complying with any expressed or implied covenant of this lease, from conducting drilling or reworking operations thereon or on lands pooled therewith or from producing oil or gas therefrom or from lands pooled therewith, by reason of scarcity of, or inability to obtain or to use pipelines, equipment or material, explosions, breakage of or accident to machinery, equipment, or lines of pipe, the inability to acquire, or the delays in acquiring, at reasonable cost and after the exercise of reasonable diligence, such servitudes, rights of way, permits, licenses, approvals and authorizations by regulatory bodies as may be necessary in order that obligations assumed hereunder may be lawfully performed in the manner contemplated, or by market conditions which (in Lessee's sole judgement) render sales of oil or gas unprofitable or imprudent, or by operation of force majeure, or because of any federal or state law or any order, rule or regulation of a governmental authority, then while so prevented, Lessee's obligation to comply with such covenant shall be suspended, and Lessee shall not be liable in damages for failure to comply therewith; and this lease shall be extended while and so long as Lessee is prevented by any such cause from conducting drilling or reworking operations on, or from producing oil or gas from the Land or lands pooled therewith; and the time while Lessee is so prevented shall not be counted against the Lessee, anything in this lease to the contrary notwithstanding.

13. The undersigned hereby release and relinquish all rights of dower, courtesy, or other spousal interest and homestead in the Land, insofar as said right of dower, courtesy, spousal interest and homestead may in any way affect the purposes for which this lease is made as recited herein.

14. This lease may, at Lessee's option, be extended as to all or part of the Land covered hereby for an additional primary term of () years commencing on the date that this lease would have expired, but for the extension. Lessee may exercise its option by paying or tendering to Lessor an extension payment of \$ per net mineral acre for the Land then covered by the extended lease. Said bonus is to be paid or tendered to the Lessor at the last known address of Lessor. If Lessee exercises this option, the primary term of this lease shall be considered to be continuous, commencing on the date of this lease and continuing from that date to the end of the extended primary term. If Lessee's operations are delayed or interrupted as a result of any coal mining operations affecting the Land or any portion thereof, including any lands pooled or unitized therewith, such delay will automatically extend the primary term of this lease for a period of time equal to any delay or interruption. Lessor hereby grants any such extensions of this lease without necessity of an amendment to said lease.

15. This lease and all its terms, conditions, and stipulations shall extend to and be binding on all successors in title of said Lessor or Lessee.

IN WITNESSETH WHEREOF, this instrument is executed on the date first above written.

Contact Report

The Separately Owned Interest, being the Lewis Cemetery located in the Barker 1-6H drilling unit, which is comprised of part of Section 6, Township 6 North, Range 9 West, Sullivan County, is abandoned. Noble Energy has diligently attempted to ascertain ownership of Tract 015, containing 0.50 acres, but no such current owner can be identified or located. Noble Energy has requested on numerous occasions that the Township Trustees execute an Oil and Gas Lease to cover the Separately Owned Interest. Since the Trustees do not maintain this cemetery, they will not claim any ownership interest therein. Further, they have declined to execute an Oil and Gas Lease based upon said lack of ownership.

The Abstract of Title covering Section 6, Township 6 North, Range 9 West, reflects that the last conveyance of the Lewis Cemetery on the public record is an Administrator's Deed between the Estate of Mahala Lewis, as Grantor, and Roll Manuel, as Grantee. Said Deed, dated January 26, 1933, and recorded on February 13, 1933, in Deed Record 141, Page 407, conveyed Tract 015 using the following legal description:

One-half acre, being a square half acre in the Southeast corner of the Northwest Quarter of the Southeast Quarter of Section 6, Township 6 North, Range 9 West, and being used as a grave yard.

The public record reflects an instrument that identifies Paul Letsinger, Milburn Whitfield and Melvin D. Whitfield as Trustees of Second Baptist Church, Sullivan, Indiana. Said instrument is dated July 30, 1972, and was recorded on July 31, 1972, in Deed Record 111, Page 506. The public record also reflects a prior Oil and Gas Lease executed by Pastor Milburn Whitfield, Trustee of the Second Baptist Church, as Lessor, and Pioneer Oil and Gas, a Utah corporation, as Lessee. Said Lease, dated July 27, 1982, and recorded on July 28, 1982, in Deed Record 131, Page 351, covered Tract 015 using the following legal description:

Township 6 North, Range 9 West, Section 6: One-half acre in the Southeast corner of the Northwest Quarter of the Southeast Quarter, property formerly and presently referred to as the Lewis Cemetery.

No further instruments pertaining to Lewis Cemetery appear on record. No instrument of record reflects that Roll Manuel was a Trustee of the Second Baptist Church at the time Roll Manuel was conveyed Tract 015, or that Roll Manuel later conveyed Tract 015 into the Second Baptist Church. Further, the Second Baptist Church no longer exists. Their building, located on other property, is no longer used for church purposes.

Note that a production permit was issued based upon communication to the DNR that Noble was unable to locate a party to either execute an Oil and Gas Lease or name as a Non-Consenting Landowner in an Petition for the Integration of Interests. Accordingly, the Department of Natural Resources, Division of Oil and Gas, directed Noble Energy, Inc., to hold production proceeds generated in relation to Tract 015 in escrow until either a current owner is identified or said proceeds escheat to the State of Indiana.
